===============
HotFix ID : KB890830
Installed At (UTC) : 18-11-2023 05:20:14
Title : Windows Malicious Software Removal Tool x64 - v5.119 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.
================================================================================
===============
HotFix ID : KB5032007

HotFix ID : KB890830
Installed At (UTC) : 11-10-2023 20:36:05
Title : Windows Malicious Software Removal Tool x64 - v5.118 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

HotFix ID : KB890830
Installed At (UTC) : 16-09-2023 10:12:38
Title : Windows Malicious Software Removal Tool x64 - v5.117 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

Installed At (UTC) : 09-08-2023 21:06:03
Title : Windows Malicious Software Removal Tool x64 - v5.116 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

Installed At (UTC) : 14-06-2023 09:33:59
Title : Windows Malicious Software Removal Tool x64 - v5.114 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

HotFix ID : KB890830
Installed At (UTC) : 11-05-2023 21:34:50
Title : Windows Malicious Software Removal Tool x64 - v5.113 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

Installed At (UTC) : 12-04-2023 09:38:11
Title : Windows Malicious Software Removal Tool x64 - v5.112 (KB890830)
Client Application ID : <<PROCESS>>: McVulCtr.exe
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

Title : Windows Malicious Software Removal Tool x64 - v5.111 (KB890830)
Client Application ID : MoUpdateOrchestrator
Description : After the download, this tool runs one time to check your computer
for infection by specific, prevalent malicious software (including Blaster, Sasser,
and Mydoom) and helps remove any infection that is found. If an infection is found,
the tool will display a status report the next time that you start your computer. A
new version of the tool will be offered every month. If you want to manually run
the tool on your computer, you can download a copy from the Microsoft Download
Center, or you can run an online version from microsoft.com. This tool is not a
replacement for an antivirus product. To help protect your computer, you should use
an antivirus product.

Services Information

Interesting Services -non Microsoft-

Check if you can overwrite some service binary or perform a DLL hijacking, also check for unquoted paths
https://book.hacktricks.xyz/windows-hardening/windows-local-privilege-escalation#services

```
Apache2.4(Apache2.4)["C:\Apache\Apache24\bin\httpd.exe" -k runservice] - Auto -
Stopped
Apache/2.4.55 (Win64)
================================================================================
==============
cplspcon(Intel Corporation - Intel(R) Content Protection HDCP Service)[C:\WINDOWS\
System32\DriverStore\FileRepository\iigd_dch.inf_amd64_3fd734cf72127ac9\IntelCpHDC
PSvc.exe] - Auto - Running
Intel(R) Content Protection HDCP Service - enables communication with Content
Protection HDCP HW
================================================================================
==============
dcpm-notify(Dell Inc. - Dell Command | Power Manager Notify)["C:\Program
Files\Dell\CommandPowerManager\NotifyService.exe"] - Manual - Stopped - isDotNet
================================================================================
==============
```

```
===============
DDVCollectorSvcApi(Dell Technologies Inc. - Dell Data Vault Service
API)["C:\Program Files\Dell\DellDataVault\DDVCollectorSvcApi.exe"] - Auto - Running
Dell Data Vault Service API exposes a COM API for working with the DDV services
================================================================================
===============
DDVDataCollector(Dell Technologies Inc. - Dell Data Vault Collector)["C:\Program
Files\Dell\DellDataVault\DDVDataCollector.exe"] - Auto - Running
DDV Collector service gathers system information and stores it for later use
================================================================================
===============
DDVRulesProcessor(Dell Technologies Inc. - Dell Data Vault Processor)["C:\Program
Files\Dell\DellDataVault\DDVRulesProcessor.exe"] - Auto - Running
DDV Rules Processor generates alerts based on data collected by DDV Collector
service
================================================================================
===============
Dell Digital Delivery Services(Dell Digital Delivery Services)["C:\Program Files
(x86)\Dell Digital Delivery Services\Dell.D3.WinSvc.exe"] - Auto - Running -
isDotNet
Downloads and installs the applications that you purchased with your computer
================================================================================
===============
Dell SupportAssist Remediation(Dell INC. - Dell SupportAssist
Remediation)["C:\Program
Files\Dell\SARemediation\agent\DellSupportAssistRemedationService.exe"] - Auto -
Running - isDotNet
Dell SupportAssist Remediation Service
================================================================================
===============
DellClientManagementService(Dell Client Management Service)["C:\Program Files
(x86)\Dell\UpdateService\ServiceShell.exe"] - Auto - Running - isDotNet
Enables Dell applications to manage Dell specific features of the system. If this
service is stopped, any services that explicitly depend on it will cause this
service to be restarted. If this service is disabled, any services that explicitly
depend on it will fail to function.
================================================================================
===============
DellTechHub(Dell - Dell TechHub)["C:\Program Files\Dell\TechHub\Dell.TechHub.exe"]
- Auto - Running
Foundational service managing Dell applications through Dell TechHub
================================================================================
===============
esifsvc(Intel Corporation - Intel(R) Dynamic Tuning service)["C:\WINDOWS\System32\
DriverStore\FileRepository\dptf_cpu.inf_amd64_1da48d5885266bb7\esif_uf.exe"] - Auto
- Running
Intel(R) Dynamic Tuning service
================================================================================
===============
GoogleChromeElevationService(Google LLC - Google Chrome Elevation Service
(GoogleChromeElevationService))["C:\Program
Files\Google\Chrome\Application\119.0.6045.200\elevation_service.exe"] - Manual -
Stopped
================================================================================
===============
gupdate(Google LLC - Google Update Service (gupdate))["C:\Program Files
(x86)\Google\Update\GoogleUpdate.exe" /svc] - Auto - Stopped
Keeps your Google software up to date. If this service is disabled or stopped, your
Google software will not be kept up to date, meaning security vulnerabilities that
may arise cannot be fixed and features may not work. This service uninstalls itself
when there is no Google software using it.
================================================================================
===============
gupdatem(Google LLC - Google Update Service (gupdatem))["C:\Program Files
(x86)\Google\Update\GoogleUpdate.exe" /medsvc] - Manual - Stopped
Keeps your Google software up to date. If this service is disabled or stopped, your
Google software will not be kept up to date, meaning security vulnerabilities that
may arise cannot be fixed and features may not work. This service uninstalls itself
when there is no Google software using it.
================================================================================
===============
iaStorAfsService(Intel Corporation - Intel(R) Optane(TM) Memory
Service)[C:\WINDOWS\System32\iaStorAfsService.exe] - Manual - Stopped
Enables amazing system performance and responsiveness by accelerating frequently
used files
================================================================================
===============
igccservice(Intel Corporation - Intel(R) Graphics Command Center Service)["C:\WIND
OWS\System32\DriverStore\FileRepository\igcc_dch.inf_amd64_a687edda40db3316\OneApp
```

```
.IGCC.WinService.exe"] - Auto - Running - isDotNet
Service for Intel(R) Graphics Command Center
================================================================================
===============
igfxCUIService2.0.0.0(Intel Corporation - Intel(R) HD Graphics Control Panel Servi
ce)[C:\WINDOWS\System32\DriverStore\FileRepository\cui_dch.inf_amd64_6673c5322430f
c8a\igfxCUIServiceN.exe] - Auto - Running
Service for Intel(R) HD Graphics Control Panel
================================================================================
===============
Intel(R) Capability Licensing Service TCP IP Interface(Intel(R) Corporation -
Intel(R) Capability Licensing Service TCP IP Interface)[C:\WINDOWS\System32\Driver
Store\FileRepository\iclsclient.inf_amd64_367008a610747d24\lib\SocketHeciServer.ex
e] - Manual - Stopped
Version: 1.66.712.0
================================================================================

Intel(R) TPM Provisioning Service(Intel(R) Corporation - Intel(R) TPM Provisioning
Service)[C:\WINDOWS\System32\DriverStore\FileRepository\iclsclient.inf_amd64_36700
8a610747d24\lib\TPMProvisioningService.exe] - Auto - Stopped
Version: 1.66.712.0
================================================================================
===============
IntelAudioService(Intel - Intel(R) Audio Service)[C:\WINDOWS\System32\DriverStore\
FileRepository\intcoed.inf_amd64_c34ea2dc251566b0\\AS\\IAS\\IntelAudioService.exe]
- Auto - Running - isDotNet
================================================================================
===============
jhi_service(Intel Corporation - Intel(R) Dynamic Application Loader Host Interface
Service)[C:\WINDOWS\System32\DriverStore\FileRepository\dal.inf_amd64_64d7fcfcde9b
9c10\jhi_service.exe] - Auto - Running
Intel(R) Dynamic Application Loader Host Interface Service - Allows applications to
access the local Intel (R) DAL
================================================================================
===============
McAfee WebAdvisor(McAfee, LLC - McAfee WebAdvisor)["C:\Program
Files\McAfee\WebAdvisor\ServiceHost.exe"] - Auto - Running
McAfee WebAdvisor Service
================================================================================
===============
McAPExe(McAfee, LLC - McAfee AP Service)["C:\Program Files\Common
Files\McAfee\VSCore_22_12\McApExe.exe"] - Auto - Running
McAfee AP Service
================================================================================
===============
McAWFwk(McAfee, LLC - McAfee Activation Service)["C:\Program Files\Common
Files\McAfee\ActWiz\McAWFwk.exe"] - Manual - Stopped
McAfee Activation Service
================================================================================
===============
mccspsvc(McAfee, LLC - McAfee CSP Service)["C:\Program Files\Common
Files\McAfee\CSP\5.5.107.0\\McCSPServiceHost.exe"] - Auto - Running
McAfee Cloud Platform Service
================================================================================
===============
mfefire(McAfee, LLC - McAfee Firewall Core Service)["C:\Program Files\Common
Files\McAfee\SystemCore\mfemms.exe"] - Manual - Stopped
Provides firewall services to McAfee products
================================================================================
===============
mfemms(McAfee, LLC - McAfee Service Controller)["C:\Program Files\Common
Files\McAfee\SystemCore\mfemms.exe"] - Auto - Running
Manages McAfee Services
================================================================================
===============
mfevtp(McAfee, LLC - McAfee Validation Trust Protection Service)["C:\Program
Files\Common Files\McAfee\SystemCore\mfemms.exe"] - Manual - Running
Provides validation trust protection services
================================================================================
===============
ModuleCoreService(McAfee, LLC - McAfee Module Core Service)["C:\Program
Files\Common Files\McAfee\ModuleCore\ModuleCoreService.exe"] - Auto - Running
McAfee Module Core Service
================================================================================
===============
MySQL80(MySQL80)["C:\Program Files\MySQL\MySQL Server 8.0\bin\mysqld.exe"
--defaults-file="C:\ProgramData\MySQL\MySQL Server 8.0\my.ini" MySQL80] - Auto -
Running
================================================================================
===============
```

```
===============
PEFService(McAfee, LLC - McAfee PEF Service)["C:\Program Files\Common
Files\McAfee\PEF\CORE\PEFService.exe"] - Auto - Running
File Permissions: Everyone [WriteData/CreateFiles]
McAfee PEF Service
========================================================================
===============
RAPSService(Rivet Networks, LLC. - Rivet AP Selector Service)["C:\Program
Files\Rivet Networks\SmartByte\RAPSService.exe"] - Auto - Running - isDotNet
This service provides provides a service which automatically connects of the best
known Wifi AP.
========================================================================
===============
RNDBWM(Rivet Networks, LLC. - Rivet Dynamic Bandwidth Management)["C:\Program
Files\Rivet Networks\SmartByte\RNDBWMService.exe"] - Manual - Stopped - isDotNet
This service dynamically manages bandwidth settings based on detection of internet
traffic congestion.
========================================================================
===============
RstMwService(Intel Corporation - Intel(R) Storage Middleware Service)[C:\WINDOWS\S
ystem32\DriverStore\FileRepository\iastorvd.inf_amd64_15c9ea6001a5206d\RstMwServic
e.exe] - Auto - Running
RPC endpoint service which allows communication between driver and Windows Store
Application
========================================================================
===============
RtkAudioUniversalService(Realtek Semiconductor - Realtek Audio Universal Service)[
"C:\WINDOWS\System32\DriverStore\FileRepository\realtekservice.inf_amd64_444148fa7
298b49f\RtkAudUService64.exe"] - Auto - Running
Realtek Audio Universal Service
========================================================================
===============
SessionSvc(Goodix - Session
Detection)[C:\WINDOWS\System32\drivers\GoodixSessionService.exe] - Auto - Running
========================================================================
===============
SmartByte Analytics Service(Rivet Networks - SmartByte Analytics
Service)["C:\Program Files\Rivet Networks\SmartByte\SmartByteAnalyticsService.exe"]
- Auto - Running
SmartByte Analytics Service
========================================================================
===============
SmartByte Network Service x64(Rivet Networks - SmartByte Network
Service)["C:\Program Files\Rivet Networks\SmartByte\SmartByteNetworkService.exe"] -
Auto - Running
========================================================================
===============
ssh-agent(OpenSSH Authentication Agent)[C:\WINDOWS\System32\OpenSSH\ssh-agent.exe]
- Disabled - Stopped
Agent to hold private keys used for public key authentication.
========================================================================
===============
SupportAssistAgent(Dell Inc. - Dell SupportAssist)["C:\Program
Files\Dell\SupportAssistAgent\bin\SupportAssistAgent.exe"] - Auto - Running
Dell SupportAssist keeps your PC up to date and running at its best with
recommended software and driver updates. It also helps resolve issues quickly by
detecting common problems and sending issue details to Dell Technical Support
agents on your behalf.
========================================================================
===============
TbtP2pShortcutService(Intel Corporation - Thunderbolt(TM) Peer to Peer
Shortcut)[C:\WINDOWS\TbtP2pShortcutService.exe] - Auto - Running
Thunderbolt(TM) Peer to Peer Shortcut
========================================================================
===============
WavesAudioService(Waves Audio Ltd - Waves Audio Universal Services)[C:\WINDOWS\Sys
tem32\DriverStore\FileRepository\wavesapo10de.inf_amd64_f7373b847419c8d1\WavesAudi
oService.exe] - Auto - Running - isDotNet
Waves Audio universal global services
========================================================================
===============
WavesSysSvc(Waves Audio Ltd. - Waves Audio Services)[C:\WINDOWS\System32\DriverSto
re\FileRepository\wavesapo10de.inf_amd64_f7373b847419c8d1\WavesSysSvc64.exe] - Auto
- Running
Waves Audio global services
========================================================================
===============
WMIRegistrationService(Intel Corporation - Intel(R) Management Engine WMI Provider
Registration)[C:\WINDOWS\System32\DriverStore\FileRepository\mewmiprov.inf_amd64_f
```

```
3c201b4c28c14d0\WMIRegistrationService.exe] - Auto - Running
Intel(R) Management Engine WMI Provider Registration Service
================================================================================
===============
0127371701339789mcinstcleanup(McAfee Application Installer Cleanup
(0127371701339789))["C:\ProgramData\McInstTemp0127371701339789\McInst.exe" -cleanup
